NEXAWORKS | COMPREHENSIVE PROPOSAL: CLOUD PLATFORM TRANSFORMATION

Submission Date: *2026-09-28* | ***Historical Experience Rating:*** *4.6 / 5.0*

---

1. EXECUTIVE SUMMARY & REQUIREMENT UNDERSTANDING

NexaWorks brings a meticulous, engineering-first approach to your digital transformation. We understand that stability, seamless change management, and stellar post-implementation support are paramount to your business continuity. Our proposal outlines a zero-downtime migration strategy tailored precisely to your operational framework.

2. PROPOSED SOLUTION & IMPLEMENTATION APPROACH

• **Architecture:** Robust event-driven architecture with domain-driven design (DDD) principles using Spring Boot microservices orchestrating workflows via the Saga pattern.

• **Integrations:** Enterprise Service Bus (ESB) and secure API gateways with strict rate limiting.

• **Scalability:** Fully optimized for elastic scaling across multi-region cloud environments.

3. TIMELINE, TEAM STRUCTURE, AND MILESTONES

• **Total Duration:** 18 weeks.

• **Team Structure:** 1 Principal Consultant, 2 Senior Architects, 4 Development Engineers, 2 QA & Automation Leads, 1 Dedicated Scrum Master.

• **Phase 1 (Weeks 1-4):** Deep technical discovery, dependency mapping, and CI/CD pipeline setup.

• **Phase 2 (Weeks 5-12):** Iterative microservice decoupling and rigorous unit/integration testing.

• **Phase 3 (Weeks 13-16):** Staging simulation, load testing, and user training.

• **Phase 4 (Weeks 17-18):** Phased production rollout and hypercare monitoring.

• **Risk Plan:** Detailed risk mitigation strategies covering data integrity loss, rollback procedures, and team bandwidth constraints.

4. PRICE TABLE WITH ASSUMPTIONS

• **Total Project Cost:** $140,000 USD

• **Breakdown:** Discovery & Architecture ($25,000), Core Implementation ($85,000), Testing & Validation ($20,000), Support Transition ($10,000).

• **Assumptions:** Client staging environments mirrored to production specs; access to legacy code repositories granted by Week 1.

5. SECURITY, COMPLIANCE, AND RISK CONTROLS

• **Controls:** Multi-layered network security groups, automated vulnerability scanning in CI/CD, and encrypted database connections.

• **Certifications:** ISO 27001 compliant development lifecycle, GDPR compliant data processing agreements.

• **Privacy & Auditability:** Immutable audit trails for all administrative actions and data access events.

6. SUPPORT MODEL, RELEVANT EXPERIENCE, AND REFERENCES

• **Support Model:** 24/7 dedicated support desk with a guaranteed 30-minute response time for priority-one incidents, backed by quarterly optimization reviews.

• **Similar Projects:** Successfully executed 9 enterprise-grade legacy modernization initiatives over the past 4 years.

• **References:** Global Logistics Corp & Apex Retail Group (Contact details supplied in Appendix B).
